

SETTLING IN POLICY – Including The Key Person

We want children to feel safe, stimulated and happy in the Pre-School and to feel secure and comfortable with staff. We also want parents to have confidence in both their children's wellbeing and their role as active partners with the Pre-School.

We aim to make the Pre-School a welcome place where children settle quickly and easily because consideration has been given to the individual needs and circumstances of children and their families.

Procedures

The term before your child starts with us we offer a stay and play session. This session is accompanied by a parent/carer and is an opportunity for your child to become familiar with the environment.

Each child is allocated a key person upon starting. Your child's key person will be determined by the working shifts of staff. You will be informed of who your key person is prior to starting. Your child's key person will do their best to get to know your child by spending time with them and will build a bond to create a secure attachment. This will help them to feel safe and secure.

- The key person is responsible for:
 - Providing an induction for the family and for settling the child into our setting. Building a bond to get to know the child and understand their needs.
 - Providing assistance with the completion of relevant forms (as required), including consent forms.
 - Explaining our policies and procedures to parents where needed.
 - Offering unconditional regard for the child and being non-judgemental.
 - Working with the parents to plan and deliver a personalised plan for the child's well-being, care and learning.
 - Acting as the key contact for the parents.
 - Updating developmental records and observations and share information on a regular basis with the child's parents to keep those records up-to-date, reflecting the full picture of the child in our setting and at home. We use an online system called Tapestry to record and share this information.
 - Having links with other carers involved with the child and coordinating the sharing of appropriate information about the child's development with those carers.
 - Encouraging positive relationships between children.

You will be offered an opportunity to visit the Pre-School for a settling session before your child starts. This gives you and your child an opportunity to meet your key person. It gives the key person an opportunity to complete any outstanding paperwork and to discuss the best settling in process for your child and to explain their role. It also gives your child an opportunity to spend some time at the setting with the security of their parents/carers. At settling sessions, you will be asked to provide a copy of your child's birth certificate as well as a copy of your child's 2 year progress check, if this has taken place. We ask parents/carers to complete an "All About Me" questionnaire on behalf of their child to assist us in getting to know the child and preparing for them starting at our setting as well as a "Baseline questionnaire" to help us establish a starting point for your child's learning and development. Settling sessions are arranged to be as close to your child's actual start date as possible.

How a child settles at Pre-School is dependent on numerous factors (such as previous experiences, age, personality). Your child's key person and other members of staff will work with you to help your child settle as quickly as possible. A child is considered to have "settled" into the Pre-School, if they come in and happily say goodbye to their parent/carer. Or if they show minimal distress, quickly settle with a member of staff, and then go on to participate actively in Pre-School activities.

When children are new to pre-school, activities will be considered which help the children interact with their peers, to help them make friends and build a sense of belonging at pre-school.

If it helps your child to settle, they are more than welcome to bring in a comforter. However, as your child becomes more confident and comfortable in the setting, staff members will encourage your child to keep their comforter in their bag (to avoid loss or damage and also to reduce dependency on it). If you wish to send your child in with a comforter, please be aware that it could go astray or get damaged. The Pre-School does not encourage the use of dummies. Staff will work with you as needed to develop strategies so that these are not depended on.

You are encouraged to say goodbye to your child and leave quickly and allow members of staff to settle your child.

If your child is distressed, and cannot be settled by a member of staff, every effort will be made to distract them and find activities that they enjoy. You will be informed by phone how your child is settling if required. The setting will work closely with you to find ways to ensure that your child can settle at Pre-School. Should you be worried about how your child is settling please speak to the manager or your child's key person who will be happy to have a meeting with you to discuss how to proceed.

At the end of your child's first session a member of staff (usually your child's Key Person) will feedback to you about how your child has managed their day.

Within the first term at Pre-School parents/carers are invited to come to a parent consultation to discuss their child's settling and developmental progress.

The progress check at age two

Where a child attends more than one setting, this will be carried out by the child's primary setting. If this check is carried out by another setting, we ask parents to provide us with a copy of the report.

- The key person carries out the progress check at age two in accordance with the Early Years Foundation Stage.
- The progress check aims to review the child's development and ensures that parents have a clear picture of their child's development.
- Within the progress check, the key person will note areas where the child is progressing well and identify areas where progress is less than expected.
- The progress check will describe the actions that will be taken by us to address any developmental concerns (including working with other professionals where appropriate) as agreed with the parent(s)/carers.
- The key person will plan activities to meet the child's needs within the setting and will support parents to understand the child's needs in order to enhance their development at home.
